

BUFFALO

BOA

Buffalo Harbor

Join us for a Visioning Workshop!

The City of Buffalo Mayor's Office of Strategic Planning has been awarded three significant Brownfield Opportunity Area grants from the New York State Department of State. This program enables communities to put strategies in place to return dormant or underutilized brownfield sites back to productive use and improve condition for surrounding neighborhoods while simultaneously restoring environmental quality. A portion of this funding will be used to undertake a Step 2 Nomination Study for the Buffalo Harbor area. Once completed, this documents will help guide the transformation of the City of Buffalo's waterfront.

The City of Buffalo has retained the expertise of land use, environmental, and economic consultants to conduct the BOA study. Now that the analysis phase is approaching completion, Urban Strategies Inc., the lead consultant, will be hosting a public open house on Wednesday, January 25th.

Building on the first open house, the consultant team will present their initial findings and directions and host a visioning workshop on the future of the Buffalo Harbor Brownfield Opportunity Area.

Please join us to hear about the work we have done to date, discuss the preliminary directions for the future of the area and participate in a visioning session to let us know what you would like to see happen!

Findings & Directions for the Future Public Workshop:

January 25th, 2012 from
6:00 pm to 9:00 pm

Buffalo Waterfront Elementary School,
Faculty Entrance (North Entry)
95 4th Street

6:00 - 6:15: Open House
6:15 - 7:00: Presentation
7:00 - 8:30: Workshop
8:30 - 9:00: Wrap up
